

Variables & Types

(JavaScript)

var

var *year*

```
var year;
```

```
var year = 2015;
```

var year = 2015;

Déclaration

Affectation

```
var year = 2015;
```

Nom

```
var year = 2015;
```

Valeur stockée

A vertical arrow points from the text 'Valeur stockée' to the number '2015' in the code snippet above.

```
var year = 2015;  
year + 10;
```

```
var year = 2015;  
var otherYear = year + 10;
```

```
var balance = 100;
```

```
var balance = 100;  
balance - 30;
```

```
var balance = 100;  
balance = balance - 30;
```

$$x = x - 30$$

$$x = x - 30$$

$$x - x = -30$$

$$0 = -30$$
