Rails Params

(Rails)

Where are the params?

1 - dynamic URL

GET https://www.facebook.com/**:user_name**

GET https://www.facebook.com/**borispaillard**

```
params[:user_name] => borispaillard
```

1 - dynamic URL

https://www.airbnb.com/s/**:city**

https://www.airbnb.com/s/**roma**

```
params[:city] => roma
```

2 - query string

GET https://www.airbnb.com/s/roma?**checkin**=**02/17/2016**

```
params[:checkin] => 02/17/2016
```

3 - POST request

POST https://www.lewagon/apply

```json
{
    "first_name": "Boris",
    "last_name":"Paillard"
}
```
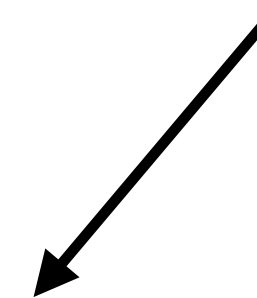

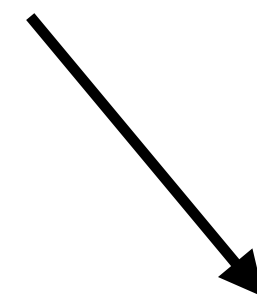

} request body

```
params[:first_name] => "Boris"
```

Good news !

dynamic URL   query string   POST request body

```
params
```
